Mobilizing the Church**

*"For I am not ashamed of the gospel for it is the power of God for salvation to everyone who believes, to the Jew first and also to the Greek." Romans 1:16*

October, 2021

Dear Family, Friends, and Partners  
Blessings in Jesus our Lord.

We just recently returned from a thrilling five weeks in Tanzania, where we preached the Gospel to both Jew and Gentile in venues spanning the vicinity of Mount Kilimanjaro to a seaside resort on Zanzibar.

The COVID-19 pandemic has continued to hinder plans to return to Israel at the moment, and after much prayer, we are trusting the leading of the Lord to vacate our apartment in Jerusalem which we've held for eighteen years. We will be placing our possessions in storage until further leading by the Lord. Travel to Israel is currently difficult and uncertain because of changing requirements and is likely to remain so for the foreseeable future.

By God's grace, WMO remains focused on bringing the Gospel of Jesus, splitting time between the United States and the world. Increasing focus on evangelistic ministry in rural areas of the US, we will be proclaiming the Gospel and working with local churches for follow-up and discipleship. The need is great. During the last year, the Lord opened our spiritual eyes to see the great spiritual needs in the states. Recorded for 2017, the suicide rate in urban areas was 16 deaths per 100,000 and in rural areas it was more than 24 deaths per 100,000 (Johns Hopkins University, 2017).

The shift towards more ministry in the domestic US is consistent with the scripture that calls us to "walk circumspectively, not as fools but as wise, redeeming the time, for the days are evil." (Eph. 5:15-17). Accordingly, we plan to continue visiting churches to proclaim the Gospel, evangelize in local communities, and strengthen these pastors and their congregations spiritually.

Up to this point for the above purposes, we have been using a small SUV purchased for WMO and staying in motels and private homes. This mode of travel has become more arduous and stressful because of the limited carrying capacity, and the considerable time and energy required to pack and unpack our personal and ministry equipment. We also need to carry enough clothing to cope with both cold and hot weather across the USA. Lastly, being dependent on tourist facilities for food and adequate toilet facilities has been a stressful complication.

We need help to improve our travel logistics. We believe that the purchase of a proper travel trailer and pickup truck for towing would enable us to better carry out the work of the ministry, while minimizing the time required to pack and unpack at each stop. Therefore, we are asking you to consider a special donation to WMO to help us acquire this equipment.

Please prayerfully seek the Lord's guidance and direction as to the amount that you would be able to contribute to cover this

expense – remembering that whatever your contribution, it is an eternal investment into the Kingdom of God, and those souls that are saved will be forever grateful. World Mission Outreach is accountable to God, to our Board, the ECFA, and is a 501 C-3 non-profit

organization.

Thank you for your faithful prayers for us as we carry this work of itinerant evangelism under difficult conditions. God is faithful and we need to stay faithful to His calling of evangelism. We cannot do this without you. We are one team. May the good Lord Jesus bless each one of you, and meet your needs according to His riches and glory in Christ Jesus (Phil. 4:19).

Please take a look at the video below for a quick message from us.

Most respectfully, your servants in the ministry of evangelism until He comes back for His bride. The Lord Jesus is coming back.

*Henry and Darlene*

A good friend wrote a note on our behalf after seeing firsthand what life on the road has looked like for us. If you have a minute to read a short testimony of someone who opened their home to us, please take a look below.

---

### **Letter from Deacon Leon Robinson:**

"I have known and loved Henry and Darlene Matarrita for a number of years and would like to present some of my personal observations regarding their evangelistic efforts in America. As they began their latest trip across America, they stayed at our home before departing and also upon their return. Even though they were able to purchase a small Toyota SUV for their mission efforts, there are a number of problems associated with this arrangement. On the evening of their arrival at our home, they had to completely unpack their car. When the time came for them to leave, they were awake until the early morning hours repacking everything as everything had to be packed in sequential order of the need at their next evangelistic meeting. In thinking about this, I am sure that this procedure occurred at each stop across the USA. Even though they had a large enclosed rooftop carrier containing all of their ministry material, there was no room for other items, such as personal hygiene or clothing items. To say that their vehicle was fully loaded would be an understatement. Due to the dramatic weather changes across the US, they had to pack both warm and cold weather clothing. I am sure that they weren't aware of just how dramatic those changes would be and I know that they were not properly geared for the severe cold of the North-Eastern states. As this process went on for a period of three months, they were physically and mentally exhausted upon their return to Las Vegas.

The purchase of a decent sized travel trailer and a tow vehicle (ie. Pick-up truck) would certainly be very beneficial in making their evangelism efforts more effective. Less time would be spent packing, unpacking, and repacking. I believe that in the long run it would be less expensive as I am sure that individual churches would be more than

willing to give them space to set up on their property, which would offset expenses incurred at RV parks. One of the greatest advantages would be more on a personal level. It would give them more time to evangelize on a one to one basis with new or potential believers. Sleeping in the same bed each night would certainly help to alleviate an awful lot of the stress and late night hours of packing and unpacking would be instrumental in contributing to better rest and continued good health."
